

An industry is knocking at Bay St. Louis' door. The Harris Ice Cream Co., of New Orleans and Gulfport, wants to establish a branch here. It paid \$58,500 to the dairymen of Gulfport and Biloxi last year. This market for the local product can be had for the asking.

A little effort on the part of Bay St. Louis and vicinity will secure a branch of the Harris Ice Cream Co., and it is well every effort towards this direction be exerted.

36TH YEAR—No. 48.

B. W. A. C. ORGANIZED WITH MUCH SUCCESS IN THIS CITY SUNDAY.

The auditorium of the court house was the scene of a large and enthusiastic gathering Sunday night of representative citizens of Waveland and Bay St. Louis. This was in pursuance to a call that had been issued a few days previously in an effort to organize an organization that would succeed the old Bay-Waveland Yacht Club and to include along with the regatta features all forms of athletic pastimes and a social side to the organization as well.

The result was the permanent organization of the Bay-Waveland Yacht and Athletic Club, and as a further evidence of the earnestness of the project permanent officers were elected and every committee appointed and the assurance was given in person by the chairman of every committee that such appointments were accepted.

The officers elected were:
President—E. J. Leonard
Vice President—Bernard Shields
Vice President—E. J. Lacoste
Treasurer—P. V. Lacoste
Secretary—Arthur B. Tipping
Assistant Secretary—Treasurer—Chas. G. Moreau.

Chairman of the Governing Committee—H. S. Renshaw.
Chairman Membership Committee—John Osoinach.
Chairman Finance Committee—George R. Rea.
Chairman Athletic Committee—Forster Commagere.

Executive Committee of Governing Board—H. S. Renshaw, chairman; Bernard Shields, E. J. Lacoste, P. V. Lacoste, John Osoinach, Geo. R. Rea, Arthur B. Tipping, Forster Commagere, Chas. G. Moreau, E. J. Leonard, ex-officio member.

There are three classes of membership: The regular adult, the junior and juvenile. It is proposed not only to encourage regatta, interest and events but all kinds of athletic pastimes. President Leonard donated a large tract of land he paid \$5,000 for sometime back, this to be used for the golf links, tennis courts etc. It is further proposed to have a club house on the beach front for the use of members and the entertainment from time to time of its friends.

The generosity of Mr. Leonard was applauded, but to those who know so well his public spirit and his liberality and generosity on all occasions the gift came as no surprise. Thus the assurance of the golf links is a nucleus of great means

to the project and at once practically put the project into effect.

In brief, it is proposed to feature the social as well as the aquatic and other sports coming more properly under the heading of athletic. The meeting Sunday was quite a success and the amount of work accomplished puts the organization practically on its feet and already as a going concern. New Orleans people, summer visitors to this section of the Gulf Coast, are represented and actively interested. There is also a special membership that admits them.

The prime movers of the organization are to be congratulated on the manner in which they have worked and the spirit which moved their every action Sunday night. It was "Do it Now" and thus the Bay-Waveland Yacht and Athletic Club has sprung into existence and officered from top to bottom, ready for functioning.

COLUMN DE BULL.

The little Rock-a-Chaws played the Cream of Greece, that calls themselves the Acropolis Gridders, on the past Sabbath of the p. m., and tied the score in a No. 7 knot.

Kink Constantine sent his regrets and said that he was too busy keeping in the Turkey outa his back garden to be in attendance, but he wished the Shoe-shiners a very agripapapoliand hoped that they'd continue to copapapapoli—who the whatever he is.

News of the tieup was not relayed to Athens on acct. of the gray getting cold. The gang was with the Rockchaws and 275 people came near dym of heart failure in the very amen of the last 1/2 when the whistle blew up the gray as Greece was spillin' over the line. Doctor page Bro. J.

That's about and is the very cutest whistle whatever made a noise, ain't it? The Rockchaws ain't as yet groved full spurs and if you'll hesitate till them birds play as long as them Kidders—I mean Gridders—you'll see 'em mop up the line. But stranger, lend me your cauliflower, it takes a Ford to carry anything—even a touchdown.

The slogan is now: "Hit the Bridge and a lot of pumps what's migratin' from the frozen burs are runnin' foul of Old Smileless and his frozen globe and hearing the frozen thunder of his charmin' voice as he repeats the slogan. Ain't you glad you ain't a migrater?"

Somebody passed the unkind remark to the viz: that the only heroes were made on the battlefields. Mr. Remarker, please step on the apoloizing pedal, for I would like to wise you, or otherwise put you hep to the fact that we have located one right here in this village by the sea, and it is to the also a product of a drug store and the said production is, all to the hero. The aforesaid and forementioned hero sports the Cheviot moniker of Rene of the Mont. Now, you see, gentle reader, in french this "Mont" means climb-up, or to the; otherwise, something Big. Now, that fits the old boy like the proverbial wall paper. Tell you why: the other day some moon faced hollered out the hor-r-ible cry of FIRE.

Wow, out of the Ipicac and aromatic and aromatic spirits of Asafetida comes the pillman, knocks out half dozen pikers, grabs him a Babcock or two, lives up to his name on the Tea Room roof, puts Mr. Fire on the blink in a few shakes, hops, down, lightly from the aforesaid roof, brushes the dust from his fall pants, smiles faintly, calmly wends his way back to the Prescrip counter, and in less than two minutes sells some old maid \$1.88 cents worth of "Alfreds Wrinkle Extractor."

Mr. Black was a native of New Orleans, aged 36 years, and received his musical education in New York, where, for a while, he was on the operatic stage. In the city where he lived and died he was frequently referred to as the "New Orleans Caisso."

ST. STANISLAUS COLLEGE

NOTES FOR THE WEEK.

Stanislaus Reserves Makes Debut.

The SSC reserves, the Rock-chaws little brother made their debut here last Sunday when they held the Acropolis Gridders of New Orleans to a 7 to 7 tie.

Although Bro. Justin's team was decidedly the superior, man for man and even in team work they couldn't hold out to the ball. Practically all of their losses were due to fumbles.

In the first quarter SSC received and worked the ball steadily up the field. With quarter back, called signals, for a line buck. This being their steadier ground gainer. Abbley fumbled in spite of all the rosin, and the team used a whole bag full. Anyhow a griddy came through the line picked up the ball and took the shortest path to a touch down. He even forgot to stop to thank Abbley and Witt.

In the second and third quarters the game was a deadlock. The SSC team working the ball steadily up the field on line bucks only to lose it when there was a chance to score. And then usually losing it by a fumble. End runs didn't work nearly as well as line bucks. On two line bucks the line was able to open such large holes in the opponents defense that Schloegal gained 15 yards for SSC. The gridders gained most of their ground on fumbles from kicks. When the gridders would kick the S. C. safety would fumble, and one of the gridders would fall on the ball. The safety has a very poor fielding average in spite of all the rosin.

However toward the end of the game he got good and caught a couple but it was too late. In their next game however it was expected to do a little better as they have been practicing catching the ball ever since.

In the third quarter the game went on much the same as that it had in the second and third, excepting that Jones intercepted a forward pass and showed some of his speed and broken field ability which only their coach knew that he had. He evened up the score with a brilliant 40-yd broken field run.

The gridders however came back strong and worked the ball all the way up the field to the SSC two-yard line. They tried a line buck but were thrown for a loss. During the next play the whistle was blown although they carried the ball over a touchdown wasn't allowed.

Notes.

The other day we saw two pictures of Prof. One taken some months ago the other taken very recently. His lip reminds us of the "before and after" on a hair tonic advertisement. Old Sam may want some hay. But that's cheaper than gasoline. How about it Red?

Some one in town offered to lend Bro. Justin's safety a crab net for the next game. We think that might work better than rosin.

We wonder why Schloegal calls everybody "KID."

Jokes.

They say rain shrinks things—judging by "Prof's" mustach it must have rained the day he went to New Orleans.

Do you ever expect to see the college limousine with a flat tire?

If sports and studies come to clash, why just let the studies go to smash.

Young Hopful—(at football game) "Say Dad, what do they call that man out there with the whistle?"

Nervous Father—"It depends how much I have on the game."

Now little Omer don't you cry. For you'll see Eagle Beak by and by.

Hallowe'en Party at Central School.

The Juniors invite you to a Hallowe'en party at 7:30 P. M., Nov. 4th. There will be ghosts and witches galore.

But though, forget it, and be happy on this Hallowe'en.

Just closed the contest for a half holiday. The events for which they were competing including first place in community fair, athletic and literary work. The debating team had for its subject, Resolved: "That the World Powers Should Reduce Their Armament" and the contest resulted in favor of the affirmative. In all the contests offered the Mississippian society won the half holiday over the Phi Delta Kappa by a close margin.

Our boys and girls have organized their basket ball teams and are now ready to meet any of their neighbors—Let's Go!

The Mothers' Club is to give an entertainment on Hallowe'en, observing the usual customs of the holiday and featuring as a special event an old "Blue Back Spelling Bee" charging as many cents to the first who has to sit down as there are members in the contest and to the succeeding members who meet such fate as there are remaining standing members in the class. The funds are to be used in the establishing a manual training department in the school.

Fordson TRACTOR

Henry Ford Was Right When He Said:

"The Tractor will enable the farmer to work fewer hours in the day, giving him more time to enjoy life. I believe the tractor will make farming what it ought to be—the most pleasant, the most healthful, the most profitable business on earth."

This tractor has done much—very much—in bringing true Mr. Ford's prophecy; for in it is a machine which has harnessed one of the most dependable, efficient, adaptable, economical sources of power in the world—a machine that saves from thirty to fifty per cent of the farmer's time—a machine which many farmers claim plows, harrows or drills as much ground in the same time as four, six or even eight horses. And more—a machine that takes care of every power job on the farm.

Call and let's talk it over, or telephone or drop us a card and we will bring the facts to you.
